

Leapfrog Administration

Backup

Clone the SD card

A clone of the SD card provides the most comprehensive backup possible.

Instructions on howto clone raspberry pi are available in [this blog](#).

Octoprint-Configuration

Octoprint can save its configuration in a file. This makes a restore from scratch a little less painful. The saved file includes the list of plugins and their parameters. [Howto use the backup facility](#) in the octoprint documentation.

List of available configurations:

- 2023-01-06

Automatic Backup

The tool [raspiBackup](#) provides a means to automatically save a backup of the current Raspberry Pi install at regular intervals. The backup gets saved at a network attached storage location. Backups can be full or incremental.
